We are new(ish) to the City and have been brought together to help those experiencing homelessness as well as disabilities, mental health and addiction related concerns. We formed through the collaboration of four local organizations who together recognized that something had to be done to help those struggling in our City.

Since January of 2019, our team made up of a social worker, an outreach worker and personal support worker offers services from 5:30 p.m. to 9:00 p.m., Monday to Friday at varying locations.

Our MOST Team delivers supplies, assesses, listens, and builds relationships while helping those experiencing homelessness, disabilities, mental health and addiction related concerns.

The goal is to connect individuals with existing community services and find housing. We travel by van, so we can store to our supplies and offer a comfortable environment for those to come in and talk.

Together, we look forward to continuing to change lives in our community. - **THE MOST TEAM**

"I am so grateful to see a team like yourselves out helping members of our community. Meeting people where they're at provides a sense of safety and also can alleviate the feelings of shame through relationship. Thank you so much for all you do."
