

# Mental Health Emergency Relief Fund

## CMHA-WECEB's **Sole Focus** **Project** dedicates \$10,000 to Client Assistance Fund

### Can you also help?

In this COVID-19 pandemic our most vulnerable clients desperately need help. Many rely on regular outreach and support from case workers. They now must use phones to stay connected. They are running out of data, cellular minutes and need taxi vouchers with the recent loss of public transit. Groceries and other necessities are also needed.

We're asking for your help.

CMHA-WECEB is committed to ensuring community mental health and addictions supports are safely available for our clients by providing programs, services and information online and over the phone so they can continue to receive the help they need.

We started an online #KeepConnected campaign March 30 to encourage outreach by the broader community to check in on friends, neighbours and also other creative ways for people to remain social during this time of physical distancing.

**Online donations can be made at <https://windsorsex.cmha.ca/donate/>**  
(Charitable receipts will be issued for amounts over \$20)

Thank you.
